### Bassano Will Break Loose For Peace Day

At one of the most representative and enthusiastic meetings ever held in this town it was decided to mark the formal declaration of peace by a celebration which will make all previous celebrations look "like a pink tie or a last year's mummy game."

It was the unanimous opinion that the day should be chiefly devoted to the honoring of our returned veterans and the impressing of the significance of the event upon the minds of the children; and consequently the whole day will be divided between these two efforts.

It is not possible to give all the details of the celebration but we are able to give a few items which have already been arranged to show the extent of the program.

The day's events will commence by the concerted ringing of all the bells in town and by the singing of patriotic airs in front of the town hall where the parade, which follows the hula-baloos and tiffin-nabulation, will start at 11 a.m.

The parade will consist of, it is hoped, every car and vehicle in the district (decorated or otherwise) and it is requested that the seats be given to the children and vets.

The entire morning programme will be devoted to the entertainment of the children with sports and a number of interesting events for the veterans.

The Bear Cats have arranged for two special games of ball and may be relied upon to keep the interest at boiling point during the whole session.

The Committee has secured the attendance of a first class band throughout the day.

The Veterans are to be the guests of the town for the whole day and will be banqueted in the evening. The general public will also be admitted to the banquet upon the payment of a small fee. The banquet will be held in the basement of the old Whiting Block at 6 p.m.

At the completion of the banquet monster torch-light procession will be held to the site of the celebration bonfire where a magnificent display of fireworks and the burning of effigies will occupy the remainder of the hours.

Only one thing is necessary to make the day one of wonderful enjoyment and significance and that is the whole-hearted and active support of every person in the town and district.

The Committee desire everybody to join us on that day but a very special invitation to every returned veteran in the whole district to be present as the honored guests of the town is heartily issued by the townspeople.

Forget all your troubles for one great day of rejoicing over the declaration of world peace after the most awful and tragic period in history, and help to show honor to the men whose devotion and valor has helped so considerably in making our peace victorious.

The services on Sunday next at the Presbyterian Church will be of a Special Thanksgiving character with reference to Peace Day. Rev. Chaston will occupy the pulpit.

The Majorville Farmers are holding a picnic at the river tomorrow and assure everyone of a real good time.

### The Municipal Hospital

In spite of addresses by the  
greatest Albertan authority upon  
the subject of Municipal Hospitals,  
and the publication of the complete  
scheme proposed by the local  
hospital in several issues of the  
local paper, and also printed in  
poster form and posted broadcast  
throughout the district, there are  
still many people to be found who  
prefer to believe the unsubstantiated  
utterances of jaundiced oppo-  
nents to this really excellent  
scheme.

Opposition, even if it is an ab-  
solutely narrow and purely selfish  
grounds, is perfectly in order, as  
long as those who are in opposition,  
at the least, acquaint themselves with  
the facts and, afterwards, in argu-  
ment or discussion stay with the  
facts and not delve into the dark  
recesses of their disarranged imagi-  
nations to find figures and facts  
whereby to convince people that  
black is white or vice-versa.

For the information of those in-  
terested we are asked to state, that  
the Municipal Hospitals Act was  
not drafted to permit Bassano to  
unload any of its self-imposed li-  
abilities.

Neither was it any member of the  
Council who first introduced the  
matter in this town. It was an op-  
tively disinterested party who first  
brought the matter of establishing  
a municipal hospital district here,  
and it is to the lasting credit of the  
majority that the scheme was en-  
dorsed, for it is the positive duty of  
every man to provide for and take  
care of the sick.

The "White Elephant" which  
has been so often referred to late  
(meaning of course the Bassano  
Hospital) has enabled the Board of  
Trustees to save a very considerable  
sum, by the stuporously low figure  
which was asked for it by the Town  
Council.

It may interest some of our  
readers to learn that before the  
Hon. Minister would even permit  
the ratepayers to say whether they  
were willing to pay the amount  
asked for the building, he ordered  
the Provincial Inspector to care-  
fully examine the building and give  
an estimate of its approximate value.

The Council could have sold the  
building many times over for more  
than the Hospital Board offered.

Then another aspect of the  
scheme which is ridiculously ex-  
aggerated and absurdly misquoted  
is the maximum rate which may be  
charged by the Board in the form-  
ing districts.

The maximum is four cents per  
acre on land in improvement dis-  
tricts.

There is only one representative  
from Bassano on the board of  
directors, and the other six dis-  
tricts have equal representation  
with the town.

It is not possible to state that the  
management of the hospital will be  
successful for time alone will prove  
that, but it will be admitted by all  
reasonable people that the present  
board is worthy of confidence and  
may be expected to give a faithful  
rendering of its stewardship.

We hope to give full reports of  
each meeting in the Mail to enable  
our readers to keep in touch with  
the actual and proposed work of  
the hospital.

We repeat our statement that the  
scheme is worthy and deserving of  
the heartiest support of all.

It is more essential to the com-  
munity than anything we know of  
and should easily prove its utmost  
value within a very short while.

We are glad to be able to state  
that the hospital will be opened  
within a few days and we confident-  
ly look forward to the heartiest  
operation of all that it may have  
the success which everyone hopes  
for it.

"Bobby," The Notorious Outlaw  
Brought to Submission  
At Last

On Monday evening July 14th a great  
crowd gathered at Mr. S. Payton's  
corral to see this boy perform.

Cowboys from several parts of the out-  
lying district came to town to see the  
performance.

"Bobby" was being saddled some  
took shelter on top of the barn and  
others sought shelter in the trees.

This outlaw horse was being tried out  
for the Calgary Stampede.

Bobby tried all the tricks, known only  
to outlaw horses, but they failed to  
take effect on this boy wonder.

If there are any farmers in the district  
who would like to have their horses tried  
out for the Stampede would advise them  
to bring them to Bassano, as good  
money can be made on strong demand and will  
bring good prices.

Also if any one has a bad horse that  
they would like to have thoroughly  
broken to the saddle could advise them to  
bring them to Gilbert Owens, and he  
will make them forget all their mean  
tricks under the saddle. Gilbert will re-  
spond to Bassano in the World's Bucking  
Contest at Calgary Stampede, to be held  
in August.

Horses will be taken out every evening  
at Mr. Payton's corral until the middle of  
August.

## Buy an Irrigated Farm

From the Canadian Pacific Railway.

Irrigation makes the farmer  
independent of rainfall, and  
insures good crops, not oc-  
casionally, but EVERY YEAR.

Irrigation makes possible the  
successful culture of alfalfa,  
the King of alfalfa, which in-  
sures good returns in dairying  
and mixed farming.

Irrigation means intensive farm-  
ing and close settlement, with  
all the advantages of a densely  
populated agricultural community.

Irrigation in the Canadian Pacific  
Railway Irrigation Block is no  
longer an experiment, the years  
that it has been tried having  
absolutely demonstrated its success  
wherever intelligently applied.

This is the most liberal offer of irrigated farm land on record.

For full particulars, apply to

Allan Cameron, General Super. of Lands

Canadian Pacific Railway, Department of Natural Resources

929 First Street East, Calgary, Alberta.

If you have not yet received an invitation to be present, your acceptance of this notification will be very highly appreciated.

THE CITIZENS' COMMITTEE.

### The Tax Recovery Act

The various Municipal Acts in force in the Province provide for forfeiture proceedings being taken against land on which taxes are in arrears. By these proceedings the title to the land is forfeited to the Municipality, subject to redemption within a year, and the land is not redeemed then it may be sold by the Municipality. This method of Tax Enforcement has proved to be both expensive and tedious, as it requires the making out of a Tax Enforcement Return; Abstracts of Title are required to be secured from the Land Titles Office for all lands on the said Tax Enforcement Notice; notices have to be sent by registered mail at least sixty days prior to date of the Court, at which the Tax Enforcement Return is to be confirmed to all parties having any interest in the land and notice of Court has to be advertised in the local newspaper and in the Alberta Gazette. After the Tax Enforcement Return has been confirmed additional Abstracts have to be obtained and newspapers and Alberta Gazette, giving date of final forfeiture. If the land is finally sold, it is at least fourteen months from the date of commencement of forfeiture proceedings before the Municipality realizes all its taxes, and, as frequently happens in urban Municipalities, taxes cannot be sold at all. The Municipality does not receive its taxes and in addition is out a large amount spent in obtaining Abstracts, printing and mailing special notices, advertising date of Court, advertising date of final forfeiture, and so on.

Because these proceedings were so expensive, burdensome and unsatisfactory the Hon. A. G. McKeay, Minister of Municipal Affairs, at the last session of the Legislature, introduced legislation under the name of the Tax Recovery Act, which will greatly simplify and reduce the expense of the Tax Enforcement proceedings in future.

Under the Tax Recovery Act, lands on which taxes are in arrears on the first day of July of the year following that in which they are levied, are liable to be sold for taxes and the Treasurer, Assessor or Collector, as the case may be, of each City, Town, Village or Municipal District shall, on or before the fourteenth day of August in each year, submit to the Mayor or Reeve of the Municipality, a list of all lands that are liable to be sold for taxes. The Mayor or Reeve, on satisfying himself that the list is correct, gives the proper official a notice authorizing him to advertise for sale all the lands included in such list. Such sale is required to be advertised once a week for two consecutive weeks in a newspaper or newspapers published in the Municipality, or if there is no newspaper published therein, in a newspaper published in the Municipality. Such advertisement must be published not less than six weeks before the date of sale and is required to contain a list of the lands to be sold. In addition to the publication of the list as above mentioned, there shall be published once during each week after the period of two weeks above mentioned, and prior to date of sale, a notice of such sale and a statement as to where the list of lands is to be seen. Notice of the sale is also required to be published in two issues of the Alberta Gazette, the last issue to appear not less than two weeks before the date of sale. No lands, the title to which is vested in the Crown, can be included in such sale.

Lands so offered for sale shall be sold to the highest bidder, and if they cannot be sold for the full amount of the arrears of taxes and costs, they may be sold for a lesser sum, subject, however, to a minimum value that may be placed upon them by the Council of the Municipality. This minimum value shall not

be advertised, but shall be created by the Treasurer on the upset selling price. Any lands which are not sold at such a sale shall be included in the list of lands offered for sale the following year. The purchaser at the Tax Sale will only be required to pay at date of sale, the amount due the Municipality for arrears of taxes and costs even if the land should for more than the arrears of taxes and costs.

As soon as the sale is completed, a Return showing the lands sold shall be sent to the Registrar of the Land Titles Office for the Registration District in which the land is situated, who shall register against such land a Memorandum of Sale, so that any prospective purchaser or mortgage lender may be protected.

All lands sold at a tax sale are subject to redemption within a period of one year from the date of sale. Where lands sold are not redeemed by the owner, any way in the land, will forthwith be notified of that fact by registered mail, and after a period of sixty days has elapsed, if the expiration of the redemption period, a Return of the unredeemed lands will be submitted to a Judge of the District Court, who, on being satisfied that due notice has been given and that all matters in connection with the proceedings are regular, shall make such order as to transfer as he deems advisable and in accordance with this order the Treasurer shall then issue transfer to any tax sale purchaser, on receiving from him payment of the balance outstanding, and such transfer shall entitle the purchaser to an indefeasible title, except as to claims of the Municipality of the Crown. Any monies paid to the Municipality over and above the taxes due, shall be paid to the persons declared by an Order of a Judge of the District Court to be entitled disburse.

By comparing the procedure under the Tax Recovery Act with the provisions in regard to Tax Enforcement that have hitherto been in force, it will be noted that under the Tax Recovery Act, it is only necessary for the Municipality to obtain Abstracts of Title and to send notice by registered mail, in connection with the lands which are sold and not redeemed, whereas under the forfeiture proceedings that have been in force under our Municipal Acts, it is necessary to obtain Abstracts of Title of all lands for which taxes are in arrears, to send notice by registered mail to all parties shown to be interested, then during the year allowed for redemption after the land has been forfeited, it is necessary for another set of Abstracts to be secured and two more notices to be sent to each person shown to be interested in the land, and after all this trouble and expense the Municipality may not receive the taxes due, as a mortgagee may be unable to collect any taxes whatever.

The Tax Recovery Act provides for the immediate sale of land for taxes, without waiting for a year as required by the forfeiture proceedings. If the land can be sold at all, this brings in the taxes immediately. If it cannot be sold, very little expense has been incurred. In addition to making provision whereby by Municipalities may obtain their taxes more quickly, the Tax Recovery Act provides a simple method whereby action may be taken at an expense that will not be more than one-third of what is now under the forfeiture proceedings required in different Municipalities, and if the land is worth the taxes the Municipality gets revenue quickly, while if the land will not sell, the Municipality has not been put to any great expense.

The provisions of the Tax Recovery Act will come into force in the year 1920, and on and after the year 1920 the Tax Enforcement Proceedings provided for in the Municipal Acts will cease to be operative except insofar as proceedings instituted prior to the end of the current year are concerned.

### Development Work of C.P.R. Natural Resources Dept. of Immense Value

During his recent trip, the editor quite accidentally found proof of the far-reaching effect of the publicity work undertaken by the Natural Resources Dept. of the C.P.R. and also gained a little insight of the value of that work to the farmers not only on C.P.R. land but throughout the Dominion, by the development of new markets and new methods of cultivation.

At nearly every large centre of the C.P.R.'s railway system, the company have, during recent years, erected booths for demonstrating the productiveness of the prairie soil and the various crops which may be grown thereon.

The booth at Moose Jaw has proved of great interest to many travellers from the States who travel over the famous Soo Line.

One of these travellers, a Mr. Sholl, a prominent New York business man, found exhibited in the booth a sample of peas which, according to his statement, are very much in demand in Europe, and which he was not aware could be grown anywhere in Canada.

The editor had, through the courtesy of Mr. Beck, seen a tremendous crop of these peas growing at the demonstration farm at Rosemary last year, and consequently was able to give an account of what the irrigated land in this district is capable of.

Mr. Sholl immediately wanted to make arrangements for buying up the entire crop, and to this end wired Mr. Beck, Mr. Bark and several others who might have the necessary information for particulars as to acreage under pea crop.

It is in this manner that the Natural Resources Dept. of the C.P.R. is continually opening up and developing new markets and larger possibilities for the farmers in the irrigation districts and elsewhere.

First by experimenting at their own expense with the various crops and afterwards demonstrating and advertising the results of their experiments broadcast.

With the information we were able to give, backed up by the actual proofs in the shape of the peas at the booths, it is possible, and very highly probable, that Mr. Sholl will shortly visit this district with a proposition which will be of interest and profit to the irrigation farmers in the district.

### LOST

One three-year-old Bay Clyde Mare, weight fifteen hundred, white stripes on forehead, three white feet, branded "H" on right shoulder, traced from premises of David Kraus, Stamped. Reward for return of same.

### TENDERS FOR COAL

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Coal for the Dominion Buildings, Alberta, Manitoba and Saskatchewan" will be received at this office until 12 o'clock noon, Thursday, July 31, 1919, for the supply of coal for the Dominion buildings throughout the Provinces of Alberta, Manitoba and Saskatchewan.

Combined specification and form of tender can be obtained at this office and from the Carpenters of the different Dominion Buildings.

Tenders will not be considered unless made in the forms supplied by the Department and in accordance with the conditions set forth therein.

Each tender must be accompanied by an accepted cheque or a certified bank payable to the order of the Minister of Public Works, equal to 10 p.c. of the amount of the tender. War Loan Bonds of the Dominion will also be accepted as security, or war bonds and cheques if required to make up an odd amount.

By order,

D. B. DESROCHES, Secretary.

Department of Public Works,

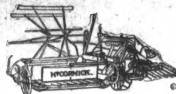

Ottawa, June 26, 1919.

### Ford

#### Electric Starting and Lighting

NO car has a better starting and lighting system than that now available to purchasers of Ford Cars. It is a Ford product, built into the motor—

—a positive starter as reliable as the motor itself.

—a powerful lighting system, uniform under all engine speeds.

On the open models—Touring Cars and Runabouts—it is OPTIONAL EQUIPMENT.

On closed cars—Sedans and Coupes—it is STANDARD EQUIPMENT.

On all models the Ford Standard Magneto also provides ignition independent of the batteries. See the Ford car with this new equipment.

Ford Runabouts \$600, Touring Cars On order the Electric Starting and Lighting Equipment a few extra.

Come Early. Sales Agents. Good model prices, for the Electric Starting and Lighting Equipment. These vehicles F.O.B. Ford, Ont. and do not include the War Tax.

Local Dealer, Roy Smith, Ford Garage

# Kaiser Have Trial In London

London.—William Hohenzollern, the former German emperor, will be brought to England in a British ship and imprisoned in the Tower of London, according to the Daily Mail.

The death penalty will not be sought, the newspaper points out, but if he is found guilty, the allies will ask his banishment for life to a remote island, following the precedent of Napoleon's exile on St. Helena.

The international trial court had intended to try the former emperor alone, the Daily Mail says, but it is possible that the former crown prince Frederick will also be arraigned before the court.

The note to Holland requesting the extradition of the former German emperor, it is understood, was signed by twenty-two or twenty-three of the powers.

The former German emperor's guards at Amerongen have been expelled, according to the Daily Mail correspondent, and his staff has been reduced. Lieut.-Gen. Von Estorff has left for Berlin. Well-informed circles at The Hague, this correspondent says, do not believe that the emperor will give the ex-emperor up to the allies. They are of the opinion that he will remain in Holland for the rest of his life.

Paris.—The officers' corps of the Prussian army and German navy, according to a Berlin dispatch, have rejected Lieut.-Gen. Von Estorff's appeal to the Queen of Holland not to permit the extradition of the former German emperor.

Winnipeg Strike Solved Nothing Winnipeg.—The Western Labor News says:

"After nearly nine weeks of strike and strife the metal shop workers went back to work. The strike is off, though some men are not reinstated and some others refuse to go back on the condition of work."

"The big three employers are still opposed to collective bargaining, as understood by trades unions. They refuse to deal with the business agents of the unions. Some of the smaller firms do recognize the union in the two cases."

Saskatoon.—At the Empire theatre in Saskatoon and the Regina theatre, Regina, for the fair weeks there will be offered three times each day one of the famous Panjane vaudeville shows. These will include a stock or 30 of the premiere vaudeville artists of the day, offering, in conjunction with movies, a two-hour show that should be a welcome added attraction to the already strong fair attractions.

Getting Rid of a Few Charleston, S.C.—A trainload of Charleston, S.C., prisoners, bound in leg-irons, was taken to Port Oglethorpe, embarked on the transport Princess Matoka for Rotterdam to be repatriated.

# Postal Workers Have Failed To Attain Object

Ottawa.—The government has decided that it cannot recede from the policy it has so far pursued in the matter of locked-out postal workers in Winnipeg. A delegation of members of the Amalgamated Postal Workers' train back to the West, having failed in an attempt to persuade the government to reconsider its policy of making permanent appointments of postal employees who acted as strike breakers when the regular postal men were out in a sympathetic strike on May 15.

The delegation was composed of C. Silvert, president of the Amalgamated Postal Workers, Victoria; L. Pickup, Winnipeg; J. V. Johnston, Winnipeg; and A. Vachon, Montreal.

"We came at the request of the strikers," said Mr. Silvert, "with a view to securing a modification of the position the government has taken on this question. We could not ask for less than reinstatement for the employees locked out."

"In an interview with Sir Robert Borden, the premier said the question resolved itself into three points: "1. Reinstatement as requested." "2. To modify its attitude and re-instate some of the men or." "3. Adhere rigidly to the terms of the ultimatum issued by Hon. Mr. Meighen."

"We went before the cabinet for its reply, and it does not see its way clear to recede from the position it has already taken. We have failed in our object."

# Belgium Ratifies Peace Treaty

Patriotic Demonstration in Parliament in Course of Process

Brussels.—The Belgian foreign minister introduced bills in the chamber ratifying the treaty with Germany and the agreements connected with the treaty. The president of the chamber read a letter from King Albert congratulating the chamber and the country on the victory achieved after the horrors of war and exhorting the country to be united in the efforts necessary to the work of restoration and reorganization. The reading of the letter was greeted with a great patriotic demonstration.

The great nation bills providing for due expression of the nation's homage to those killed in battle or executed during the war.

# A Huge Contract

Reconstruction Is Started By A Big Outlay in France

Paris.—A vast reconstruction program for the whole of France at an estimated cost of 400,000,000 francs was announced in the chamber of deputies by M. Redouté, budget reporter, during the debate on public works. The plan includes reconstruction of railroads, some of which will be electrified, and large projects for draining canals and improving harbors.

New York.—A contract for rebuilding of the war ravaged Nancy district of France has been awarded to the Vulcan Steel Products company of New York, at an estimated figure of \$250,000,000. It is feared in financial circles here.

Cossacks Break Through Ekaterinburg.—The Cossacks have captured Milleroz and the Bolshevik front north of Milleroz. In their successful advance the Cossacks put to rout four regiments and two cavalry regiments of the Bolsheviks. News of the capture of Milleroz was received in Ekaterinburg on the Kertch peninsula on the eastern end of the Crimea.

"Black Watch"—The Best Black Plug Chewing Tobacco on the Market

Revolt Stirs in Berlin Berlin.—The communists have again gained at the fermenting stage in Greater Berlin, and there were indications that the strike movement may develop into a political insurrection. The candor and boldness with which the independent Communists and the Communist benches are playing their cards shows they feel more sure of their footing than during the March revolt.

# Polish Claims To Successes

Ukrainian Front Priced and Reorganized Forces Regained Every-where

Paris.—The Polish forces have started a counter-offensive along the whole Galician-Volynian front according to advices from Warsaw. The Poles claim that they have broken through the Ukrainian line and that the Lubary-Halic-Stanislav railway line is again in Polish hands. The enemy losses, 30 machine guns and huge stores being captured.

It seems that the Ukrainians were everywhere taken by surprise and gave way at all points. The Poles occupied Brody, Pischow, Ponomarev and Berezany, taking 1,000 additional prisoners and much booty. The Lemberg message says that the Poles have pierced the Ukrainian front at several points. Crowds of Ukrainian prisoners are arriving at Lemberg and the population of the evacuated regions are returning. Bolshevik forces have an attack on the Polish front, but were everywhere repulsed.

Senate Refused To Change Vote

Ottawa.—The senate has voted down the motion of Sir James Loughridge, government leader, that they do not insist on their amendment to the prohibition bill, by a majority of seven, the vote standing 30 to 23.

# Food Riots in Italy

Protests at Price of Food of Serious Nature

Porti, Italy.—After a great meeting, which was a vast crowd protesting against the high cost of living, the people, excited by inflammatory speeches, attacked, sacked and destroyed many shops. The rioters refused to sell commodities at lower prices. Some of the food of the mob made no distinction and had no limit. All the shops and shops were plundered and the mobs controlled the entire city. They took possession of lorries and transported all kinds of goods and food supplies from the pillaged shops to the chamber of labor.

On the walls of the chamber they wrote: "These goods are at the disposal of the people."

The situation grew worse during the night, the rioting assuming a revolutionary character, and the mob continued to loot and destroy all kinds of property. The rioters have, however, died fundamentally from those at Spezia early in June. At Spezia the rioters looted for their own advantage, while at Porti most of the what taken from the shops was transferred to the chamber of the municipality or the chamber of labor to be distributed to the people or sold at low prices.

The value of the goods stored by the municipality was estimated at \$600,000. The owners of those shops which escaped sacking brought their keys to the municipality, which is composed of socialists and republicans, and ordered that the shops be reopened and the goods sold for half price under the supervision of representatives of the demonstrating masses.

Despite this apparent return to order in the riotous moment, the losses are enormous owing to the destruction of shop fittings and commodities which could not be easily transported, such as gasoline, which was burned in great quantities.

# Peace River Coal

Leases Cancelled

Ottawa.—As a result of the investigation by the select committee of the senate appointed several days ago to inquire into the alleged cancellation of the Peace River coal leases, the government has decided to cancel the leases.

The leases, which were granted to the Canadian Coal and Coke Co., Ltd., for the Peace River district of the Alberta. Peace River, some 200 miles north of Edmonton, have been cancelled by order of Hon. Arthur Meighen, minister of the Interior. As a consequence, the application for the right to build a railway to the town of Athabasca, Grande Prairie and Vermilion railway will go no further than its present stage.

Officials of the geological survey branch have testified before the select committee that the coal area in the Peace River district is not in Canada, and that if developed and connected with the main lines it would be able to supply the whole of the west with a coal almost in quality to the Pennsylvania anthracite.

# Hoover Resigns As 'Food Controller'

Will Remain as Director of Newly-Organized Grain Corporation

New York.—The resignation of Herbert Hoover as chairman of the board of directors of the food administration grain corporation and reorganization of the corporation under the name "United States Grain Corporation" was announced at the annual meeting of stockholders here.

Hoover's place as chairman will be filled by Julius Barnes, wheat director, who also is president of the corporation. It was said Mr. Hoover would continue as a director, but that his resignation of the chairmanship marked the first step toward his retirement from public life.

Builders Are Back

Winnipeg.—Members of thirteen building trades unions, who have been out of work for the past nine weeks, have returned to work.

With the reopening of work contracts began to rush plans for construction of many new buildings this spring, and whose abandonment has not been forced by the shortness of the remaining building season.

Lord Raleigh Dead

London.—Baron Raleigh (John William Strutt) has died at his home in London, aged 84. He was known as the "peer shopkeeper," having established a chain of milk shops in London which were supplied by his own farms. He was born in 1842.

Cry tomorrow, if you must, but laugh today.

W. N. U. 1271

# Reign of Terror in Russia

Women and Children Are Slain By the Bolsheviks

New York.—A graphic story of a reign of terror in Bolshevik Russia is related by John A. Embury, United States consul at Omsk, the seat of the Kolchak government, who has arrived here on a leave of absence. Mr. Embury declared no language could adequately picture the scenes of murder, violation of women, arson and theft which he had seen personally or which he had heard of from reliable witnesses.

Mr. Embury backed his story, particularly that of the ravage of the city of Ufa, by photographs, many of which he declared he had taken himself, and which "record appalling instances of wholesale butchery of women and children."

Mr. Embury said he had visited Ufa immediately after the Bolshevik withdrawal from Kolchak's forces. He learned from survivors of Bolshevik occupation, he said, that the Bolshevik soldiers had looted the territory and then organized a "government" consisting of committees. One of the committees, he said, called the extraordinary committee on executions.

This committee, he declared, had all men of the city government rounded up, and ordered virtually all of them shot. The head of the committee, he said, had personally presided over the execution of the council, who was brought before him on a stretcher.

After his arrival in Ufa, Mr. Embury said he followed a crowd of residents into a nearby wood, where they came upon scores of bodies lying in the snow. He disclosed by the melting snow, he had been driven into the woods and brutally slain. He exhibited a photograph of a woman, whose body, he said, he had seen lying in the snow, the bodies of many mangled almost past recognition. About 200 bodies he did not profess sympathy for the Bolsheviks were shot or put to work of the most degrading character.

Omsk, a city of about 30,000. Mr. Embury declared 2,000 bodies were found on the outskirts when the Bolsheviks left the city. The photographs of some of these victims taken by Col. Tensler of the American Red Cross.

# Pensions Bill Is Up For Discussion

New Measure Considered Satisfactory By Major Williams, M.P.

Vancouver.—"A new pensions' bill" will be brought in parliament this session. It will not please everyone. It is not the bill the entire country has approved, but I want to tell you that it undoubtedly meets the most general provisions of any pensions' bill in the house," said Major George H. Andrews, M.P. for Centre Winnipeg, speaking as a delegate at the G.W.V.A. convention.

The statement made by Major Andrews followed the presentation by the resolutions committee of a long resolution comprising no less than 17 sections, in which the desires of the veterans as set out in a large number of resolutions from various branches had been incorporated, and which was hoped that the Dominion convention would endorse.

# Help In Time Of Trouble

British and States to Act in Concert in Aiding France

Paris.—The Franco-British and Franco-American treaty, the Journal says, provide that the intervention of Great Britain and the United States on behalf of France against Germany shall be inter-dependent. Great Britain and the United States, it is advised, will help France by combined action and not separately. The paper declares that their intervention will help France by combined action and not separately. The Rhine territory is not sufficient to protect France from German aggression.

No Abatement in Forest Fires

Haleybury, Ont.—Two more settlers in the bush country west of the town are reported to have lost their farm buildings in the Sharp Lake fire, which is still raging. The victims are John Brown and the United States. Other properties are in grave danger as the fires are spreading before a rising wind.

Some slight showers of rain are reported to have fallen in different parts of the country, but the effect on the fires has been negligible. At Fredericton, N.S., the plan of the Board of Canada is menaced, but is still standing.

# British Premier On Making Of Peace

London.—Mr. Hon. David Lloyd George, the premier, had a good reception from all sections of the House of Commons. His speech was largely impromptu and discursive. He told of the peace conference's efforts to prevent war in the future, and reviewed some of the striking restrictions put upon Germany in the treaty signed at Versailles.

Discussing the determination of the allied and associated powers to place on trial William Hohenzollern, the former German emperor, as the man chiefly responsible for the war, he declared that if such a course had been followed after other wars were checked but completely nearly.

It was the intention to make such an example of Germany as to discourage others from "ever again attempting to repeat this infamy."

There was a significant passage when the premier first mentioned the league of nations. Many of the members cheered but completely nearly a equal number burst into laughter. "I beg you to try it. I beg you to try it to take it seriously," the premier protested. Proceeding, he declared, if the world could be saved from the horrors of war, it would be a great triumph.

One member shouted, "Nobody wants it!"

The premier paid special tribute to the work of the British expert advisers, he said, had been the object of the admiration of the nations at the conference, and ended with an appeal for the victory loan, with one of his typical dashes. "Demolish the spirit of patriotism."

Speaking of the territorial terms of the treaty, he said the territory taken from Germany was a matter of restoration. It was restoration of Alsace Lorraine, he said, taken forcibly the land to which its population was despoiled. It was a restoration of Schleswig-Holstein, "the taking of which he described as 'the meanest of all the French, robbing a helpless country in the pretence they were not doing it, and then retaining the spoils against the wishes of the people.'"

He said the restoration of Poland, torn by Russia, Austria and Prussian autocracy and now reunited under the flag of Poland. And he added, "they are all territories, which ought not to belong to Germany."

The British delegation, the premier said, has taken a stand resolutely opposing any attempt to put predominantly German population under Polish rule, as it would be foolish.

Seas May Be Reserved By Mail

Regina.—Seas may be reserved for parties by mail at the Postages Treasures in both Saskatoon and Regina for the big fair week attraction. The Regina Mountain and Turtle Mountain fair reserves in Northwest Manitoba.

There are times when it isn't necessary to speak the truth—but at such times it isn't necessary to speak at all.

# Council of Five Directs Conference

Open to Returned Soldiers

Winnipeg.—According to S. Larkin, of the Winnipeg Land Settlement board, the Dominion government is preparing to open for soldier settlement the Riding Mountain and Turtle Mountain fair reserves in Northwest Manitoba.

There are times when it isn't necessary to speak the truth—but at such times it isn't necessary to speak at all.

Belgium Has Named its Two Members of the Commission which will revise the treaty of 1839, and the peace treaty between Austria and Belgium its members so that a meeting can be held soon in Paris.

Lloyd to have another Alsace-Lorraine in Europe.

"I do not think anyone can claim the terms constitute justice to Germany," the premier said, in discussing the reparations clauses, "unless they believe justice in the war was on the side of Germany. Having regard to the uses Germany made of her army, there is no injustice in scattering and disarming it. If the allies had restored the colonies to Germany after the evidence of ill-treatment of the natives, and the fact that natives have taken in their own liberation, it would have been a base betrayal."

"Then take the trial of those responsible for the war. If war of this kind are to be prevented, those personally responsible for them, who have taken part in plotting them, should be held personally responsible."

"Therefore the entente decided that the man who undoubtedly had the primary responsibility, in their judgment at any rate, should be tried for the offences he committed in breaking treaties. He was bound to honor, and by that means bringing on the war."

"It was an exceptional course, and it is a pity it was, because had it been otherwise there would have been less animosity. The allied countries unanimously decided that the tribunal—an inter-allied one—should sit at London for the trial, and the person chiefly responsible for the war."

"Those guilty of submarine outrages ought to be punished, for the French Lloyd George argued that it was not vengeance. To take every possible precaution against a recurrence of the war, and to make such an example of Germany as will discourage ambitious rulers and peoples from ever again attempting to repeat this infamy. The German people appear to have accepted this, and it is essential in the terms to show, if nations committed any aggression against their neighbors, what lies in store for them."

The premier's reference to the United States and England agreeing to France in the case of the peace conference was loudly cheered. After referring to guarantees in the treaty, such as disarmament, which he declared should not be a "scrap of paper," the premier spoke on the bill dealing with the United States and British guarantees in the event of an unprovoked attack on France, saying he did not suppose any section of the House would oppose that.

Open to Returned Soldiers

Winnipeg.—According to S. Larkin, of the Winnipeg Land Settlement board, the Dominion government is preparing to open for soldier settlement the Riding Mountain and Turtle Mountain fair reserves in Northwest Manitoba.

There are times when it isn't necessary to speak the truth—but at such times it isn't necessary to speak at all.

Belgium Has Named its Two Members of the Commission which will revise the treaty of 1839, and the peace treaty between Austria and Belgium its members so that a meeting can be held soon in Paris.

Hummer trimmed Makepeace last week in a Ball Game to the tune of 14-11. The Pacificist bunch intend to have their revenge on Sunday at the picnic which is to be held at Crowfoot Grove.

Dr. Scott assures us that it is perfectly safe to assuage one's thirst with water now as a certain amount of grey matter is being used with the deposits of chloride at the pumping station.

The U.F.A. Picnic at Gem tomorrow will be a good opportunity for our "dry" farmers to witness the advantages of living in "wet" district, especially when the wet can be obtained for \$1.50 per.

"Bassano Boy" seems to be striking his stride again, and we should not be surprised to see him returning one of these days crowned with the laurels of victory over all comers. Tom seems tickled with the way his pony is recovering after his sickness last year.

A large deputation met our Municipal Hospital representatives on their return from Edmonton but found them minus suspicious parcels of any description, though full of good spirits at the success of their mission.

## Premier To Visit Calgary

Calgary, July 15th.-Much interest has been aroused locally in the prospective visit of Sir Robert Borden to the forthcoming Alberta Industrial Congress, August 11-16. The people of this district, if one may judge by sentiments expressed freely on the street, are wondering if the prime minister will avail himself of the occasion to apply a declaration for the Government on the general attitude towards labor.

It is pointed out that as the congress is of an industrial nature and as labor is one of the chief plagues of industrial expansion the opportunity would be a splendid one for the premier to make a definite pronouncement, with regard to the Government's attitude in this connection.

Should this be the case, it is explained, the whole phase of the Union Government's policy with respect to labor and the campaign against particularized benefits may be made plain.
